Restriction Requirement

35 U.S.C. § 121

1. Restriction to one of the following inventions is required under 35 U.S.C. § 121:

a. Group I, claim(s) 16-21, drawn to a **method for preparing an HIV-2 viral lysate**, classified in class 435, subclass 5.

b. Group II, claim(s) 22-25, drawn to a **method for preparing a recombinant HIV-2 peptide**, classified in class 435, subclass 69.1.

c. Group III, claim(s) 26-29, drawn to **recombinant HIV-2 peptides**, classified in class 424, subclass 208.1.

2. The inventions are distinct, each from the other because of the following reasons:

3. Inventions I and II/III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (M.P.E.P. § 806.04 and § 808.01). In the instant case, the invention of Group I is directed toward a different scientific objective, as compared to the methodology of Group II, and employs different scientific reagents and protocols. Moreover, the invention of Group I neither requires, nor uses, the product of Group III. Accordingly, the inventions are unrelated.

4. Inventions II and III are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (M.P.E.P. § 806.05(f)). In the instant case, the

recombinant peptides of Group III can be prepared by another materially different process such as solid-state peptide synthesis.

5 5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, recognized divergent subject matter, and require separate searches, restriction for examination purposes as indicated is proper.

10 6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 C.F.R. § 1.143). Applicant is also advised that the claims should be amended to reflect the election, where necessary.

15 7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim
20 remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(I).

Correspondence

25 8. Correspondence related to this application may be submitted to Group 1600 by facsimile transmission. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). Official communications should be directed toward one of the following Group 1600 fax numbers: (703)
30 308-4242 or (703) 305-3014. Informal communications may be submitted directly to the Examiner through the following fax number: (703) 308-4426. Applicants are encouraged to notify the Examiner prior to the submission of such documents to facilitate their expeditious processing and entry.

5 9. Any inquiry concerning this communication should be directed to
Jeffrey S. Parkin, Ph.D., whose telephone number is (703) 308-2227.
The examiner can normally be reached Monday through Thursday
from 8:30 AM to 6:00 PM. A message may be left on the examiner's
voice mail service. If attempts to reach the examiner are
unsuccessful, the examiner's supervisors, James Housel or Laurie
Scheiner, can be reached at (703) 308-4027 or (703) 308-1122,
respectively. Any inquiry of a general nature or relating to the
10 status of this application should be directed to the Group 1600
receptionist whose telephone number is (703) 308-0196.

Respectfully,

Jeffrey S. Parkin, Ph.D.
